Programme on Cities, Environment and Transport***

giz

**3rd High Level Seminar on
Environmentally Sustainable Cities**

**The ASEAN-German
Technical Cooperation Programme
Cities, Environment and Transport**

Roland Haas

**GIZ – German International Cooperation
Siem Reap, 6-8 March 2012**

Cities, Environment and Transport in the ASEAN Region

1. Clean Air for Smaller Cities in the ASEAN Region – 7 Countries - 2009 – 2012 (extension available)
2. Sustainable Port Development – 6 Countries – 2009 – 2012 (extension available)
3. Energy Efficiency and Climate Change Mitigation in the Transport Sector – 5 Countries – ready to take off – 2012 - 2014

What are the potential forms of collaboration?

- **Sharing our public participation approach, e.g. Vision and Goals Workshop and involvement of the public in plan development and implementation**
- **Sharing our approach of local ownership, contracting and coaching local universities**
- **Sharing our regional training approach of development of regional training capacities rather than organising courses with trainers from developed countries.**
- **Organising joint events for the ESC Model Cities Programme and our Programme on Cities, Environment and Transport**

THANK YOU
