

GREENHOUSE GAS PROTOCOL

Greenhouse Gas Inventory Accounting for Cities

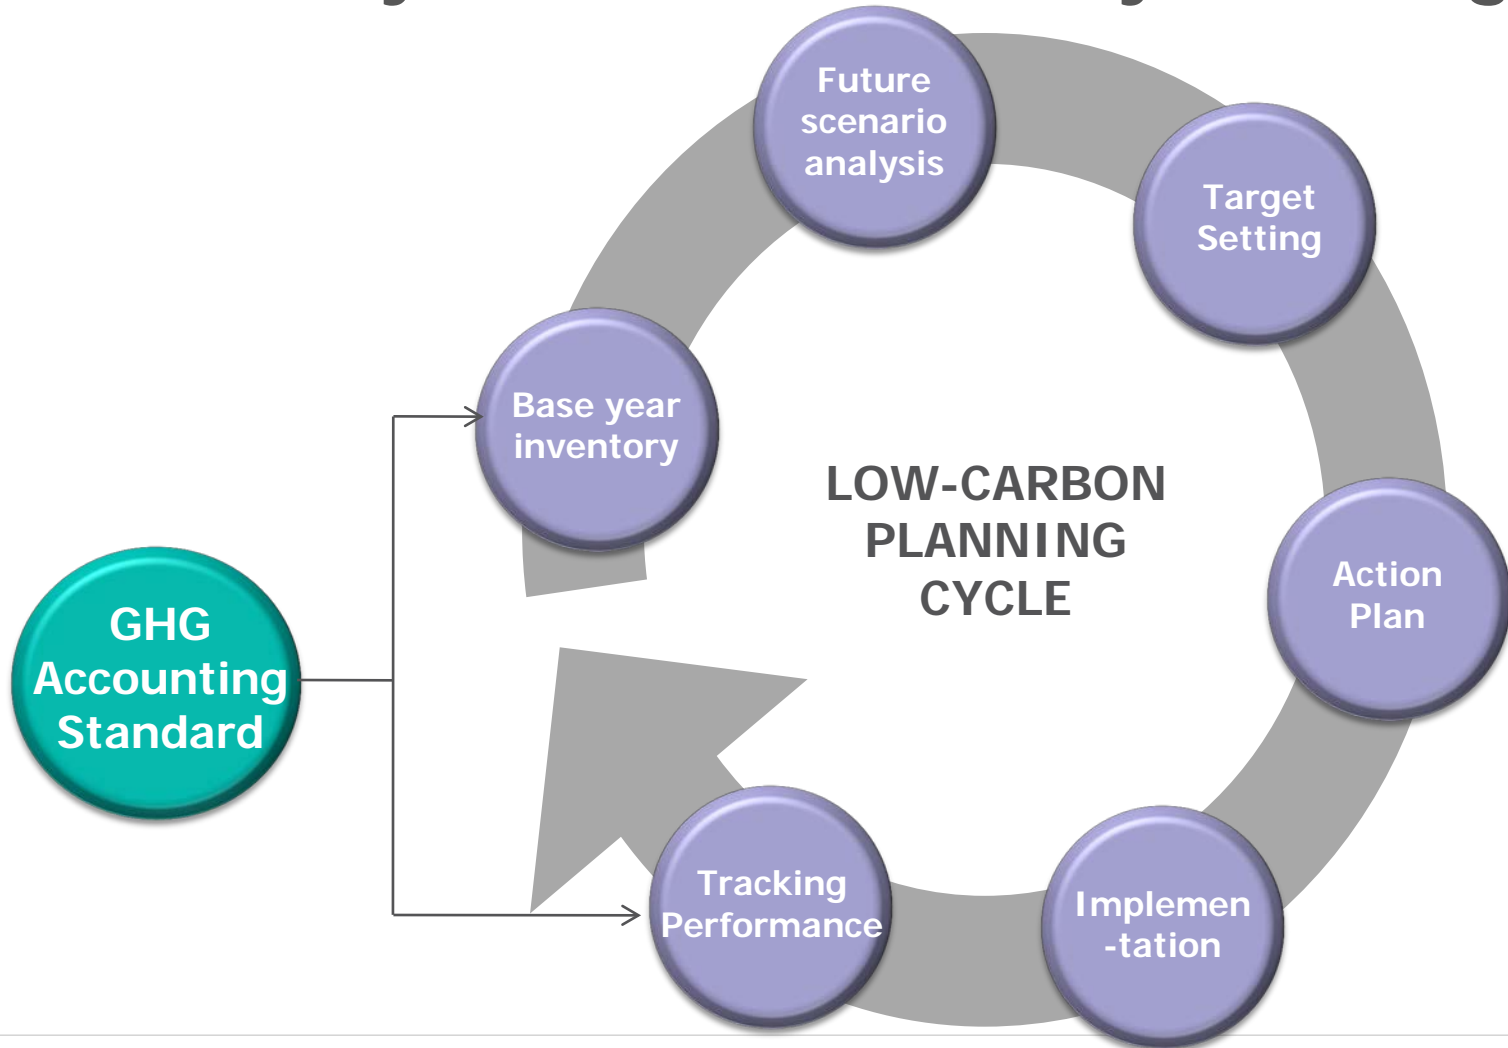

Wee Kean Fong, PhD.
Project Manager, GHG Protocol City Project,
World Resources Institute

Why Measuring GHG Emissions?

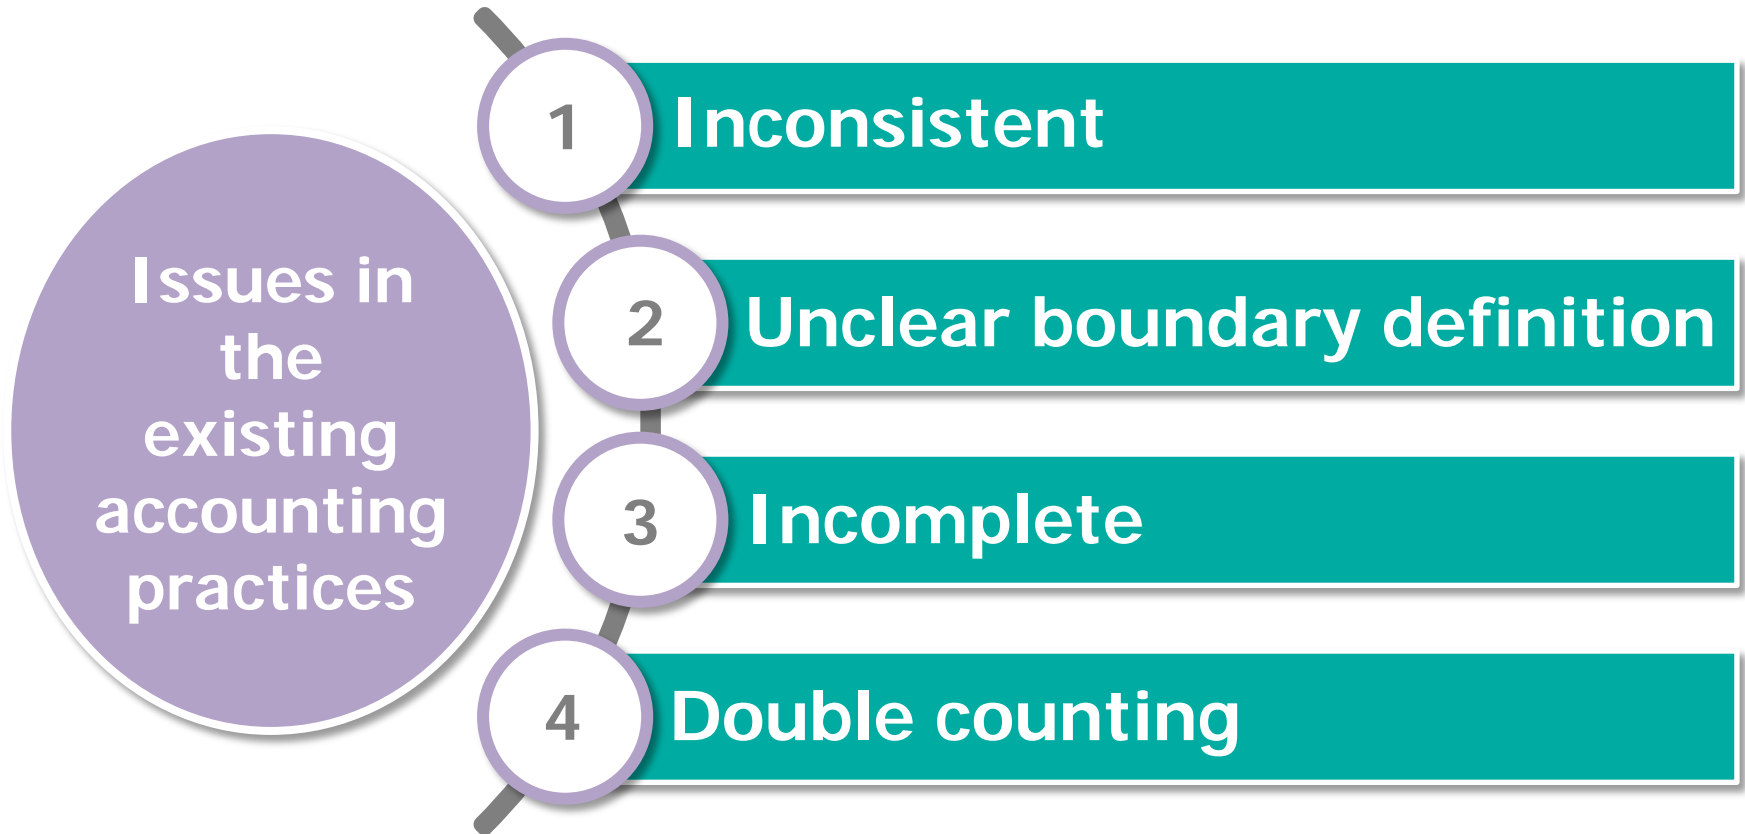

**You Can't
Manage
What You
Can't
Measure**

- ❖ Benchmarking
- ❖ Identify reduction opportunities
- ❖ Develop intervention strategies
- ❖ Monitoring performance
- ❖ Financing
- ❖ Cross-learning between cities

GHG Inventory in Low-Carbon City Planning

Why an International Standard is Needed?

The International Standard

Core Partners:

Endorsed by:

Global Protocol for Community-Scale GHG Emissions

The “GPC Pilot Version 1.0”
was released on May 14, 2012

Pilot Testing the Draft International Standard

30-50 Cities
April – September 2013

The deadline for joining the pilot project is **March 31**

Thank You!
