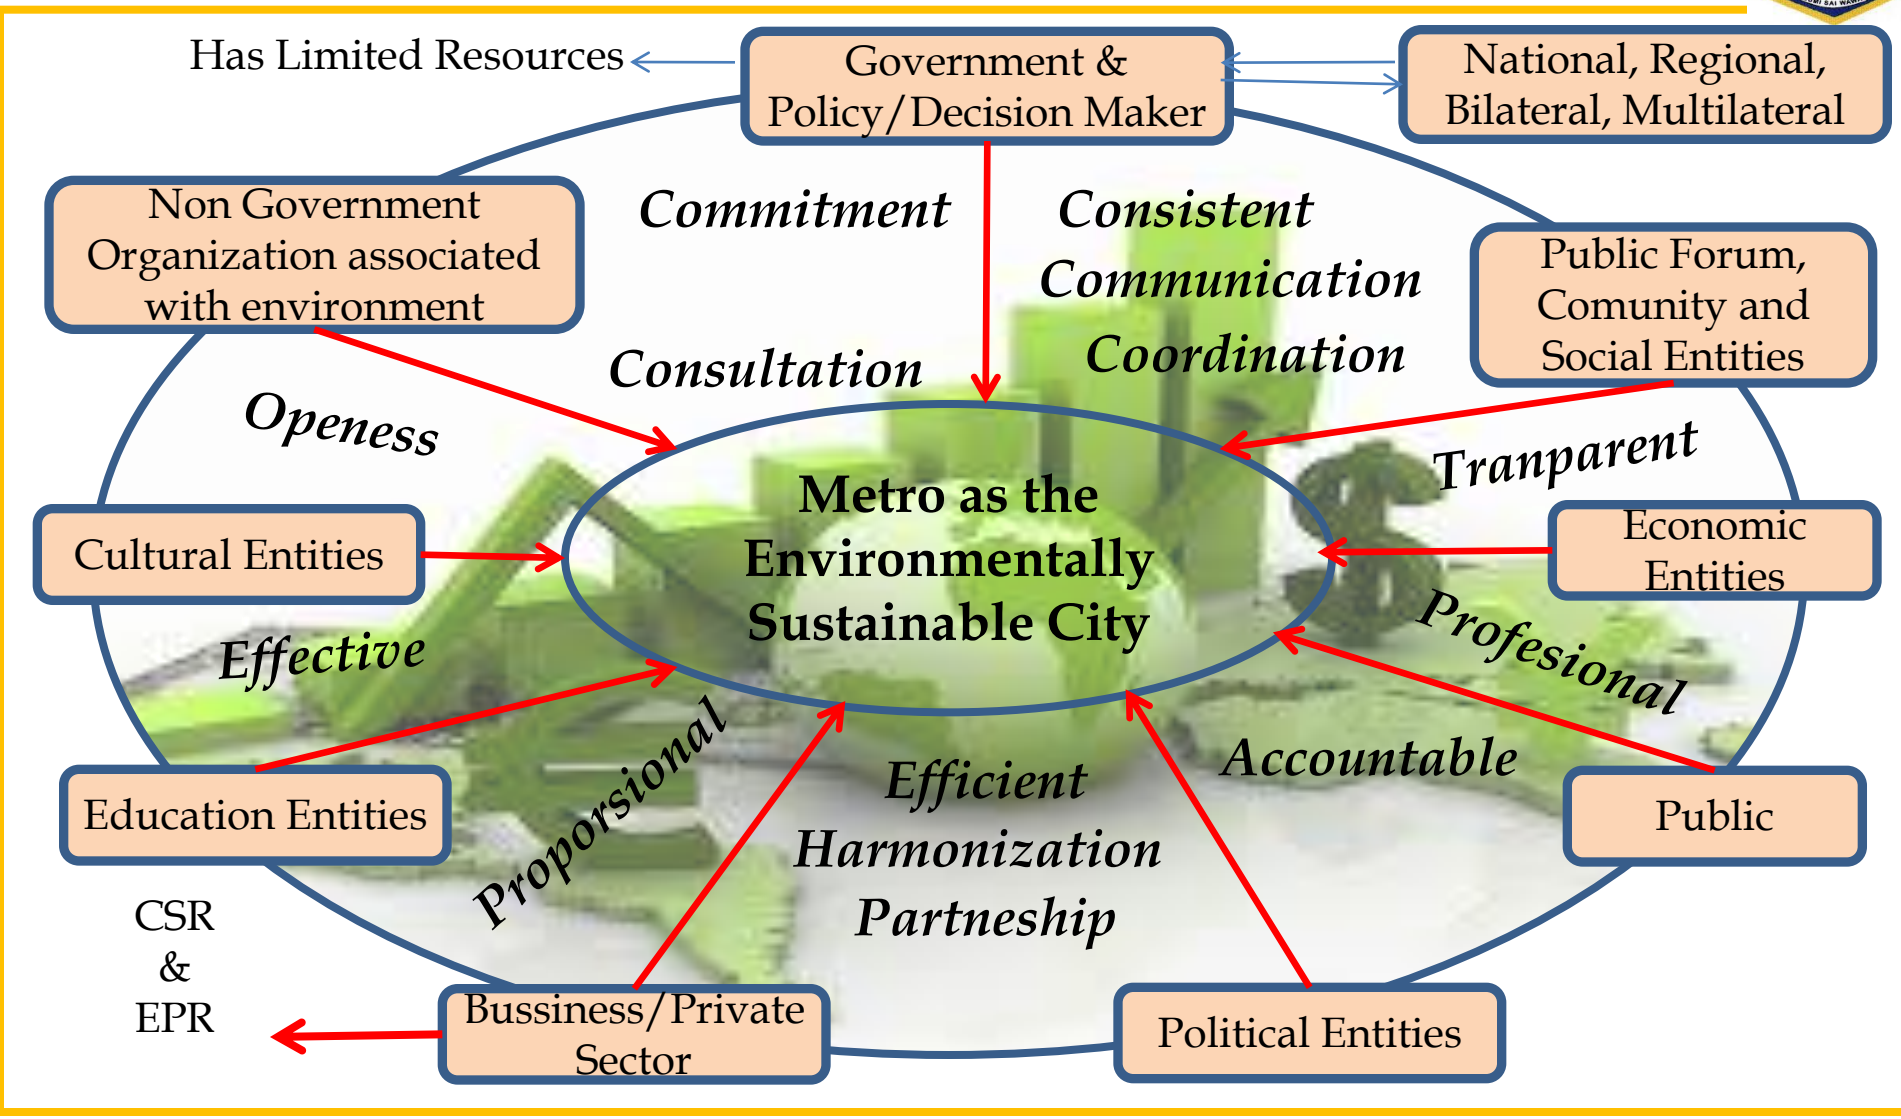
Technology Approach

Partnership Networking on Environmental Development in Metro City



Outcomes and Achievements

The most meaningful and important outcomes are:

- The raising significantly of public care and comunal awarenss to protect, preserve, conserve and manage the environment satisfactorily;
- The raising trend significantly of commersial bussiness sector to improve their extended producer responsibility and corporate social responsibility associated with environment.;
- Many national level award that got by Metro City Government but We will not stop at that "Award", we will continually make some inovation and new breakingthrough in practice of good governance to improve our care to environment.

PROGRAMS

1. To socialize “Garden City”concept as Metro city character to public, performed by cooperation with universities, bussines sector belonged ny Government and pers, since 2007.
2. Gerhan program (Gerakan Rehabilitasi Lahan) – Land Rehabilition Program for 150 hectare land which was carried out since 2004 until 2007.
3. In 2009 “OMOT” (One Man One Tree) program was already conducted, cooperated with BPDAS WSS (Balai Pengelolahan Daerah Aliran Sungai Way Seputih Sekampung), success to plant more than 36.000 trees.
4. In year 2010, Metro City carried out planting of 60.000 trembesi trees along the river bank.
5. In 2010 “OBIT” (One Billion Tree) program, planting of 25.000 trees in all villages and area region in Metro,and in all local district government office.

PROGRAMS

6. Planting pule trees for green program along the street, Akasia trees along DAS of Way Bunut, Way Grenjeng, Way Raman and critical area and bengkok land (tanah bengkok) in 59,9 hectare area.
7. To publish and socialize Mayor Order Number 14/KPTS/C.2.3/2011 on 31 Januari 2011 about village forest activist

   → "If there is a married couple they are obliged to plant 5 trees
8. Agreement of unwritten rules among society and environmental activist about trees planting, that is;planting of 4 trees, 3 (three) trees will belong to society and 1 (one) tree belong to activist.

PROGRAMS

9. To oblige the government employee of Metro city to plant some trees to get approval of (DP3) annual evaluation of the performance
10 Carry out KMDM (Kecil Menanam Dewasa Memanen/Planting now,harvesting tomorrow) to elementary students.
11. Trees Planting along the river bank of Way Raman, Way Bunut river, Way Batang Hari and Way Sekampung by water council and government of Metro city.
12. Participating in green city development Program (P2KH).
13.Carry out MoU between Ministry of Forestry and goverment of Metro city in green city Program.

National Awards

Future Challenges, Opportunity and Next Action Plan (1)

- Waste separation and segregation is started from the producers, such as: family, factory;
- Bicycle track, street pavement and pedestrian that are environmental and public friendly;
- Energy efficiency, cleaner fuel, renewable energy;
- Green public transportation;
- Waste generates electricity power. So, waste is "not only waste" but the precious material for renewable green energy power;
- Every kind of household equipment and goods is the result production of reuse and recycle of waste, more extensive efforts to reduce, reuse and recycle of waste;
- Integrated 5R action, reduce, reuse and recycle of waste, replace and replant includes: Bank Sampah;
- Integrated Green Opened Public Space;
- Annualy Green Festival;

Future Challenges, Opportunity and Next Action Plan (2)

- Green building design is the priority requirements to make a building in Metro;
- Stronger Cooperative Framework in regional, national and international;
- Stronger cooperative framework among city entities and intensive law enforcement act for environmental regulations and policy ;
- Every kind of bussiness activity in Metro City is performed with consideration of environmental friendly;
- Soil, water and air is good enough for resource to support the improvement of life quality
