Attractive Financing for Cities’ Green Infrastructure Projects
Implementation challenges ...... will require

• Coordination between multiple government agencies, private sector, community organizations and citizens

• Adaptive management approach where the actions can be modified if needed (based on monitoring, evaluation of baseline data, and citizen feedback)

• Capacity building and project management efforts

• Knowledge of funding sources and facility to raise capital

• Tools and database to monitor plan implementation
Who can participate

- Currently implemented in Southeast Asia countries
- Cities who are committed to work with ADB in long term (15-20 years)
Look forward to a strong partnership for **Green Cities**
