CDP's mission

To transform the global economic system to prevent dangerous climate change and value our natural resources by putting relevant information at the heart of business, investment and policy decisions.

How we create change

Global environmental disclosure platform

You can't manage what you don't measure.

CDP's wider work

Cities that disclose through CDP take more action

Percentage of cities taking action by number of years reporting to CDP

Cities that have disclosed to CDP for 3 years or more, report significantly higher levels of emissions measurement and management data, risk recognition and adaptation actions and opportunities.
